

FREE WORKSHOP:

## Soil Pit Field Day

Come along to a field day to understand your soils and how to interpret soil tests.

**WHEN:** Wednesday, **22 June 2022**

**WHERE:** Starting 1.30pm at McCallum's paddock, **Whim Road, Melrose**  
(or meet 1pm at car park adjacent North Star Hotel Melrose, near Hall)

**RSVP:** Monday, 20 June 2022

Presented by **Andrew Harding**, Senior Soil Consultant from PIRSA – SARDI, we'll take a deeper look at soils, understand what's underneath the surface and learn how to get the most out of them.

We'll use soil pits in the Booleroo to Melrose area to investigate the soil profile and explore soil management for crops and pastures.

During the field day, Andrew will help us examine and assess:

- Soil fertility
- Sodidity, salinity, boron toxicity
- Water holding capacity
- Physical barriers
- Carbon levels
- Productivity
