

Optimising Groundcover - Groundcover Monitoring Webinar

Join us for the first in a series of three informative webinars discussing how to optimise groundcover on your property by utilising MODIS remote monitoring imagery.

This webinar will include presentations from the Department of Environment and Water's Sustainable Soils Team, and Pinion Advisory agronomist Richard Saunders discussing:

- **Current seasonal groundcover levels and erosion risks.**
- **Utilising MODIS remote imagery to monitor, and manage groundcover throughout the season to protect the soil from erosion and maximise feed availability.**
- **Practical management options to increase and preserve groundcover based on seasonal conditions.**
- **Commercially available monitoring products, tools, and technology to monitor groundcover at a farm and paddock scale.**

To register your interest, please contact Denham Ewens at Denham.ewens@sa.gov.au

This project is supported by the [Murraylands and Riverland Landscape Board](#) through funding from the Australian Government's National Landcare Program and landscape levies.

When:

Wednesday December 14th
2022

Time: 10:00 am – 12:00pm

Cost: FREE

Location: Online Webinar
