

# Smartphone Apps for Smart Farmers v2

iOS (Apple)  
edition

This booklet was developed by Ag  
Excellence Alliance Inc., and prepared by  
Growing Solutions

# Introduction

## Background

The original version of this book was produced in November 2012, when the Ag Excellence team noticed that while increasing numbers of farmers were adopting smartphone/tablet technology, finding suitable apps was very difficult. It was our intention then to provide a booklet which gave farmers information about what apps were available and how the use of these could benefit them. Wherever possible, we have downloaded and road-tested the apps in this publication. However their inclusion in this booklet is not necessarily an endorsement of them; we are simply letting you know what's out there.

Version 2 has been produced for the simple reason that the original edition was out of date almost as soon as it was released. The world of apps is a fast-moving one, and in updating the publication, we found many apps whose information (price, file size, features) had changed, quite a few which were no longer available, and many, many new apps.

This publication is provided free of charge, in the interest of promoting the use of smartphone/tablet technology for improved management of farming systems. However, if your group wishes to share the resource online, please seek permission from, and acknowledge Ag Excellence Alliance Inc. when doing so. In some cases, permission may also need to be sought from the authors (Growing Solutions).

## Some tips on finding good apps:

It is always advisable to check ratings and reviews before buying an app, particularly the more expensive ones. Bear in mind though, that some customers might have had a negative experience with the app because of issues with their device, network, or limited understanding of the app's function, and then leave an unfavourable review. So while it's wise to check them, they're not always completely reliable.

Many Android apps are not available for all Android devices. However if you search from your device, you will only see apps which are compatible with that device. If you prefer to search from your computer using the Google Play Store (formerly Android market), logging in before searching will ensure that you will be notified as to whether that app is compatible with your device.

Some apps reviewed are from overseas and although they might not be as relevant to all users, it was felt they may be of interest to some. Where the content is exclusively from another country, we have noted this with these icons:

 **US Content**

 **Irish Content**

Most of the iPhone apps reviewed here are also available for use on iPads. In some cases, you can use one app for either iPhone or iPad, in some cases, there is an app for each, and in some cases, the app is available for iPad only. These are noted using this icon:

 **iPad Only**

### Data usage

As part of the description for each app, you will see an indication of the size of the app. This is important information, as the amount you download may be restricted by either your data allowance, or your device's capacity. It is recommended that you download a data usage app as soon as you get a smartphone or tablet; this will assist you in not going over your data allowance. There are data usage apps available for all the main carriers (Telstra, Optus, Vodaphone, & Virgin) in both iTunes and the Google Play store. Another interesting thing to note in relation to data usage is that depending on your device, you may find that you're unable to download apps over 20Mb using your 3G connection – you must connect to Wifi.

### Changes:

Apps are continually being updated. Even if you have paid for an app, updates are provided free of charge. As a result of the updates, file sizes, functionality and pricing all fluctuate. The details in this booklet were correct at the time of publishing, but will vary in the future, so please check details carefully before downloading.

Similarly, some apps will sometimes be removed from the market for one reason or another.

### Prices:

Many apps have a free version and a paid version. The paid versions are usually ad-free and have more functions. In most cases in this booklet, the paid version has been reviewed, and if there is a free version available, that is noted using this icon:

 **Free Version available**

### Copyright information:

© Ag Excellence Alliance Inc. Apart from fair dealings and other uses permitted by the Copyright Act 1968 (Cth), no part of this publication may be reproduced, published, communicated, transmitted, modified or commercialised without the prior written approval of Ag Excellence Alliance Inc.

### Disclaimer:

The information contained in this booklet is for information purposes only, and may not apply to your situation. The author and distributor provide no warranty about the content or accuracy of content enclosed. Information provided is subjective.

### **Further Information**

This initiative is a product of a partnership between Ag Excellence Alliance Inc, the South Australian Murray-Darling Basin Natural Resources Management Board and the Department of Environment, Water and Natural Resources through funding from the NRM levy, South Australian and Australian Governments.

	Agriculture Glossary	<p>This app is an easy to use glossary, a comprehensive list of 1300+ terms related to Agriculture. Scroll through the alphabetical list, or search using key words. Terms can be added to favourites list, or emailed.</p> <p> <b><i>US Content</i></b></p>	\$1.29	2.1Mb	Internet not required	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android
	AWRI Agrochemical Search	<p>A must for Australian grapegrowers and winemakers exporting wine. The AWRI's agrochemical app helps you quickly identify the preferred agrochemical for use in the production of grapes for export wine, and any restrictions on their use.</p> <ul style="list-style-type: none"> <li>• Select the target and the growth stage of your vines</li> <li>• List active constituents based on recommended withholding period for export grapes</li> <li>• List chemical products available</li> </ul>	Free	2.4Mb	Internet not required	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android

		 <b><i>New in this edition</i></b>					
	Case IH AFS Academy	<p>The brand new AFS Academy mobile app has been built to serve as an easy to access, on-the-go resource for Case IH AFS customers everywhere. A comprehensive library contains practical and useful step-by-step video tutorials for Case IH AFS customers. These videos walk you through setting up and operating your displays, desktop software, and more.</p> <p>Find a video that suits your needs, download it, and view it anywhere and at any time; whether you're at home or working in the field.</p>	Free	1.3Mb	Internet required	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android
	Crop Diseases	<p> <b><i>New in this edition</i></b></p> <p>The DEPI (Department of Environment and Primary Industries Victoria) Crop Disease application provides quick access to current disease resistance ratings and an extensive disease image library. Compare the resistance ratings of a number of crop varieties for different diseases. Compare disease symptoms with photographs. Explore detailed information on crop varieties. Map diseases, and share photographs with friends.</p> <p> <b><i>New in this edition</i></b></p>	Free	36.5	Internet required for some sections	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android

	<p>Crop Nutrient Deficiency Image Library</p>	<p>A comprehensive collection of crop nutrient deficiency photos. A range of nutrient deficiency examples are provided for 14 prominent crops(alfalfa, banana, barley, canola, citrus, cotton, maize, oil palm, potato, rice, sorghum, soybean, sugarcane, wheat). Text and diagrammatic descriptions are also provided.</p> <p> <b><i>New in this edition</i></b></p>	<p>Free</p>	<p>219Mb</p>	<p>Internet not required</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Similar apps available for Android</p>
	<p>CropSmart Customer Order Application</p>	<p>Download Cropsmart's Mobile application for use on your smart phone</p> <p>Features:</p> <ul style="list-style-type: none"> <li>• View open orders</li> <li>• View open invoices</li> <li>• View current offers and place orders for chemical in seconds</li> <li>• View the Cropsmart product list and compare to equivalent products</li> <li>• Convenient, secure and fast</li> </ul> <p> <b><i>New in this edition</i></b></p>	<p>Free</p>	<p>.9Mb</p>	<p>Internet required</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Available for Android</p>
	<p>CROptical</p>	<p>With an ever watchful eye on your fields, GEOSYS CROptical™ uses amazing satellite imagery to monitor daily changes in your crop's growth, health and yield. Previously only available to large organisations, this new App allows individual users to chart their crop's progress and to benchmark against other farms.</p> <p>GEOSYS leads the Agribusiness world in offering effective agronomic tools based on the most advanced satellite technologies. CROptical™ now</p>	<p>Free</p>	<p>11.7Mb</p>	<p>Internet required</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Not available for Android</p>

		delivers those technologies to individual users in a cost effective and easy to use App.					
	DTN The Progressive Farmer	<p> <b><i>New in this edition</i></b></p> <p>This app is designed to let producers browse news, blogs, market commentary and weather information.</p> <p>Features:</p> <ul style="list-style-type: none"> <li>• Award-winning agriculture news</li> <li>• Detailed market data</li> <li>• Interactive charts - see how the latest prices correlate with current market trends</li> <li>• Cash grain prices</li> <li>• Create your own watch list to monitor preferred futures, options and stock picks</li> <li>• Weather (US only)</li> <li>• View daily weather, market, and special interest videos</li> <li>• Content is now stored so you no longer have to worry if you're going to be out of 3G or Wi-Fi range, the app will retain data from the last time you connected allowing you to view content while offline</li> </ul> <p> <b><i>US Content</i></b></p> <p> <b><i>iPad Only</i></b></p>	Free	4.4Mb	Internet required for some sections	iOS (iPad only) download <a href="#">here</a>	Not available for Android

	FarmContractor	<p>FarmContractor is designed to help agricultural contractors record client and job details. It allows contractors to record full details of their procedures and email them back to the home or office to be invoiced. Includes more than 25 job types including Baling, Equipment Hire, Harvesting, Mulching, Mustering, Shearing, Spraying and Windrowing.</p>	\$12.99	3M.1b	Internet required for some sections	iOS (iPhone or iPad) download <a href="#">here</a>	Not available for Android
	Farmsafe Safety Induction	<p>This tool provides a general guide to introducing safety for workers on most farms. However, all farms are different and any specific hazards or risks that are present must be covered in more detail. Additional commodity specific safety information can be found at the Farmsafe website.</p> <p> <b><i>New in this edition</i></b></p>	Free	2.5Mb	Internet required for some sections	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android
	Field Guide by Oklahoma State University:	<p>Oklahoma Nutrient Management Field Guide App is a mobile version of a printed handbook. Within this App users have access to nutrient removal values, a nutrient deficiency identification tool, fertilizer calculations for all of the major crops grown with Oklahoma and information on fertilizer sources and using the N-Rich Strip and GreenSeeker Sensor.</p> <p> <b><i>New in this edition</i></b></p>	Free	21.4Mb	Internet not required	iOS (iPad only) download <a href="#">here</a>	Not available for Android

 <p>GRDC Grains Research &amp; Development Corporation  Field Peas The Ute Guide</p>	<p>Field peas: The Ute Guide</p>	<p>Field peas: The Ute Guide app will assist in recognising disease, insect attack and poor nutrition symptoms in field pea crops. Also contains best practice in growing and marketing the crop.</p> <p>Features:</p> <ul style="list-style-type: none"> <li>• Predictive search for topics</li> <li>• Progressive Symptom Sorter to identify disease or physical, nutritional or chemical disorders and their management</li> <li>• Compare photos of field pea disorders or pests side by side with pictures in the app</li> <li>• Opt to download content updates in-app to ensure you're aware of the latest research on field peas</li> <li>• Receive notifications of field pea news from GRDC</li> </ul> <p> <b><i>New in this edition</i></b></p>	<p>Free</p>	<p>37.3Mb</p>	<p>Internet required for some sections</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Available for Android</p>
	<p>Glencore Grain Australia Pricing</p>	<p>Glencore Grain's indicative Australian contract pricing app is designed for the Australian grain grower. Here you will find easy to access indicative contract pricing and the ability to search and save your favourite pricing combinations by site, season and grade.</p> <p> <b><i>New in this edition</i></b></p>	<p>Free</p>	<p>35.4Mb</p>	<p>Internet required</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Available for Android</p>

	GrainCorp	<p>The GrainCorp App provides users with a quick and easy means to access real-time commodity pricing information, site information and site segregation information, for all GrainCorp sites across the East Coast of Australia. Users who have delivered grain into the GrainCorp system will also be able to view their basic Grower Delivery Summaries which will display both the site and grade, sold and unsold information.</p> <p>Features:</p> <ul style="list-style-type: none"> <li>• Price Search at your local site- cash , contract and pool</li> <li>• Price Changes – ability to see market changes with a quick glance</li> <li>• Site Information – opening hours, site contact and site alerts</li> <li>• Grower Delivery Information – see what grain you have delivered into the GrainCorp system</li> <li>• Merchant Contact – call your local merchant with the touch of a button</li> </ul> <p> <b><i>New in this edition</i></b></p>	Free	4.2Mb	Internet required for some sections	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android
	Hardi Twin US	This app allows you to calculate your chemical savings & increased spraying capacity.	Free	4.9Mb	Internet not required	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android

	<p>Harvest Time &amp; Expense Tracker</p>	<p>This app allows you to track time and log expenses. The flip-clock counts the number of billable hours and minutes you've been working. The expense tracker allows you to upload photos of your receipts as you enter expenses so you keep all your records organized.</p> <p>Features:</p> <p>Simple time tracking</p> <ul style="list-style-type: none"> <li>• Start and stop project and task timers</li> <li>• Track your time whether you are online or offline</li> <li>• Enter billable hours for your projects right from your phone</li> <li>• Access your timesheet and review time records for all your entries stored on Harvest</li> </ul> <p>Log Expenses</p> <ul style="list-style-type: none"> <li>• Enter expenses quickly and easily</li> <li>• Track expenses against client projects</li> <li>• Track mileage and more for reimbursement</li> <li>• Take a photo of your receipts and upload straight to Harvest</li> </ul>	<p>Free</p>	<p>3.7Mb</p>	<p>Internet required for some sections</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Available for Android</p>
	<p>ICS-NPK</p>	<p>ICS-NPK is useful to anyone wishing to develop a fertilization plan and has access to soil tests. The app instantly calculates the values for assessing mineralization with the contribution of the elements necessary to different crops. The values contained in the software for each culture are defined in base experimental data accompanied by an appropriate mathematical analysis which defines the optimal requirements of macroelements</p>	<p>\$4.99</p>	<p>0.7Mb</p>	<p>Internet not required</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Not available for Android</p>

		(Nitrogen, Phosphorus and Potassium). The app is a useful tool for farmers and technicians during cultivation because this allows better use of fertilizers with consequent cost savings, increased product quality and greater environmental awareness.					
	Inoculant Calculator	The BASF Inoculant Calculator is for use within Australia only. The smart, simple and sure way to calculate inoculant needs. Whether you're in the field, at home, on the road, or in a store, simply use the Inoculant Application to accurately and quickly calculate the exact number of bags or cartons of inoculant you need.   <b><i>New in this edition</i></b>	Free	1.4Mb	Internet not required	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android
	Insect ID: The Ute guide	Insect ID: The Ute Guide is a comprehensive reference guide for insect pests commonly affecting broadacre crops and growers across Australia, and includes the beneficial insects that may help to control them. Photos have been provided for multiple life-cycle stages, and each insect is described in detail, with information on the crops they attack, how they can be monitored and other pests that they may be confused with. Use of this app should result in better management of pests, increased farm profitability and minimum chemical usage. As not all insects found in field crops are in this app, further advice may be required before making control or management decisions. Talk to your agronomist or the Department of Agriculture/Primary Industries for more complete information on identification,	Free	41.8Mb (iPhone) 39Mb (iPad)	Internet not required	iOS (iPhone) download <a href="#">here</a> iOS (iPad) download <a href="#">here</a>	Available for Android

		<p>management and thresholds.</p> <p>Features:</p> <ul style="list-style-type: none"> <li>• Region selection</li> <li>• Predictive search by common and scientific names</li> <li>• Compare photos of insects side by side with insects in the app</li> <li>• Identify beneficial predators and parasites of insect pests</li> <li>• Opt to download content updates in-app to ensure you're aware of the latest pests affecting crops for each region</li> <li>• Ensure awareness of international bio-security pests</li> </ul> <p> <b><i>New in this edition</i></b></p>

	<p>N Price Calculator</p>	<p>This app allows you to compare the price of various forms of nitrogen fertilizer products in terms of their price per pound of nitrogen.</p> <p>Nitrogen fertilizers such as anhydrous ammonia, urea, and urea ammonium nitrate (UAN) vary in their nitrogen content and are sold on a price per ton basis. This app converts the price of each fertilizer product from price per ton to price per pound of nitrogen -- allowing for "apples to apples" comparisons.</p> <p>The app then lets you add the price to a list of prices on a separate screen. In this manner, you build a price list to compare. By comparing the price per pound of nitrogen from multiple fertilizer sources on the N Price Calculator's Price List, the cheapest source of nitrogen can be identified.</p> <p>The price list can also be e-mailed directly from the app, allowing the user to save and share the best deals.</p>	<p>Free</p>	<p>0.7Mb</p>	<p>Internet not required</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Available for Android</p>

 <p>GRDC Grains Research &amp; Development Corporation Winter Cereal Nutrition The Ute Guide</p>	<p>Winter cereal nutrition: The Ute Guide (GRDC)</p>	<p>Winter cereal nutrition: The Ute Guide is designed to assist growers to easily identify cereal nutritional disorders. It covers both nutrient deficiencies and toxicities and environmental, chemical and physiological disorders which can give similar symptoms to nutrient disorders.</p> <p>The app contains prominent images, thorough descriptions of the issue and its contributing factors.</p> <p>Features:</p> <ul style="list-style-type: none"> <li>• Predictive search topics for disorders</li> <li>• Compare photos of nutritional disorders side by side with pictures in the app</li> <li>• Investigate other disorders with similar symptoms instantly</li> <li>• View other symptoms that a disorder may cause</li> <li>• Opt to download content updates containing the latest research on nutritional disorders for winter cereals</li> <li>• Receive notifications of winter cereal news from GRDC</li> </ul> <p> <b><i>New in this edition</i></b></p>	<p>Free</p>	<p>34.3Mb</p>	<p>Internet not required</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Available for Android</p>
 <p>YARA</p>	<p>Yara CheckIT</p>	<p>Yara CheckIT is an agricultural smartphone app that gives farmers a photographic library of the crops to allow a simple and fast identification of possible nutrient. Once the cause of the deficiency is established, the app gives the further information on how the deficiency affects that crop, what soil types are prone to this type of deficiency and what factors will make a deficiency worse. CheckIT provides a</p>	<p>Free</p>	<p>82.9</p>	<p>Internet required for some sections</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Available for Android</p>

		<p>fertilizer recommendation to treat the identified deficiency, as well as alternative products which allow preventing treatment for the following growing season.</p> <p>The application is customized and localized on a market by market basis, for the crops and language specific to the target country. CheckIT has been carefully designed to operate in rural locations with low signal strength. This enables farmers to have an on-the-spot, on-demand field analysis and recommendation for a crop deficiency in order to improve crop quality and increase yield. Users can reference photos of deficiencies in high definition, filter them by symptoms, the location of the symptom on the crop, or by the suspected cause of the symptom. CheckIT can also use mobile location services to provide contact information for the nearest Yara office.</p> <p> <b><i>New in this edition</i></b></p>

**PRODUCTION – Seed Rate/Tank Mix Calculators**

	Chemical Safety Data Sheets	<p>This app displays International Chemical Safety Cards [ICSC] produced by the United Nations Environment Programme (UNEP), the International Labour Office (ILO), and the World Health Organization (WHO). An ICSC is very similar to an Material Safety Data Sheet [MSDS], a standard reference document from the manufacturer for chemical information and is required, for safety purposes, to be kept in any place where workers face possible exposure to those chemicals.</p> <p>Use the information in this app to augment occupational health and safety when working with the applicable chemicals as an adjunct to MSDS or when MSDS are unavailable.</p> <p>Features:</p> <ul style="list-style-type: none"> <li>• Fully indexed and searchable chemical list by Name, CAS# or RTECS#</li> </ul>	Free	23.2Mb	Internet not required	iOS (iPhone or iPad) download <a href="#">here</a>	Not available for Android
--	-----------------------------	---	------	--------	-----------------------	--	---------------------------

		<ul style="list-style-type: none"> <li>• Saved history of previously viewed chemicals</li> <li>• Mark and View Favorites</li> <li>• Filters for Oilfield, Construction, EPA, OSHA Chemicals</li> <li>• Email and Airprint capability</li> </ul>					
	Mix Tank – Agriculture Tank Mixing Order and Spray Logs	<p>Mix Tank, from Precision Laboratories, is designed to assist agricultural applicators with the proper tank mixing sequence of crop protection products. Mix Tank also captures product use rates and application information with Mix Sheets and conveniently maintains accurate Spray Logs for easy record keeping.</p> <p>Following the proper mixing sequence helps users prevent product incompatibilities and can save applicators time and money by avoiding product loss and sprayer cleanout problems.</p> <p>The available Weather Integration feature within the Spray Log helps applicators manage spray drift risk by displaying weather information, including wind speed and direction, prior to spraying. Weather Integration also stores conditions at the time of application within the spray log, assisting with documentation and compliance.</p> <p> <b><i>New in this edition</i></b></p>	Free	6.3Mb	Internet required for some sections	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android

	Seed Rate Calculator	<p>Seed Rate Calculator calculates seed rate based on thousand seed weight, germination and expected field losses.</p> <p>The seed rate is delivered in kg/ha and stones per acre. It then calculates a seed requirement in tonnes of seed, based on field size in hectares.</p>	\$0.99	0.6Mb	Internet not required	iOS (iPhone or iPad) download <a href="#">here</a>	Not available for Android
	Spray	<p>Features:</p> <ul style="list-style-type: none"> <li>• Replace the manual spray log</li> <li>• Record/store spray data and weather conditions throughout the day</li> <li>• Produce professional and accurate reports for spray drift protection and chemical effectiveness in all conditions</li> <li>• Export PDF reports and invoices to email, Dropbox or in CSV format</li> <li>• Allow you to create and customise the app for your needs</li> </ul> <p><b>Free</b> <i>Free Version available</i> <a href="#">here</a></p>	\$279.99	59.4Mb	Internet required for some sections	iOS (iPhone or iPad) download <a href="#">here</a>	Not available for Android
	Tank Mix Calculator	<p>This app allows a farmer to use a mobile device to quickly and easily generate a tank mix. Just enter your acreage, tank size, and carrier volume, then select your chemicals from the list or add your own. Tank Mix Calculator will then provide you with the number of loads required to spray your acreage, along with full and partial load mixes of the chemicals you selected.</p>	Free	24.5Mb	Internet not required	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android

	<p>Tank Mix by DuPont</p>	<p>The DuPont TankMix Calculator App allows you to easily calculate the amount of product you will need to treat a specific field area, the amount of product you need to apply to a specific tank size, the amount of water you'll need to treat a specific field area or the amount of product you need to get the desired Volume to Volume ratio.</p> <p>It offers a wide selection of Units of Measure to make it useful anywhere in the world and it gives you the flexibility to enter information using both decimals or fractions.</p>	<p>Free</p>	<p>0.5 Mb</p>	<p>Internet not required</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Not available for Android</p>

Ground Cover is applicable to pasture management regardless of the type of livestock used. The app allows you to accurately assess the ground cover of your paddock and even send that information by email to a database.</p> <p>GroundCover uses geo-location technology along with a standard Step Point monitoring process and is supported with photographic benchmark capability.</p> <p> <b><i>New in this edition</i></b></p>	Free	3.8Mb	Internet required for some sections	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android
	iSpyFish	<p>This fish field guide contains detailed descriptions, rich images, distribution maps and the option to record your catch of 21 native and 8 alien species found in the Goulburn Broken Catchment, situated in the south eastern Australian State of Victoria. It allows users to record their fish catch at the push of a button, which are mapped and displayed in real time on the Goulburn Broken Catchment Management Authority Website.</p> <p>The app also allows you to post your catch to your personal Facebook page and the Goulburn Broken Catchment Management Authorities iSpy Fish Facebook page. These recordings will help build our knowledge on the distribution and habitat preference of fish species across the Goulburn Broken Catchment.</p> <p> <b><i>New in this edition</i></b></p>	Free	30.5Mb	Internet required for some sections	iOS (iPhone or iPad) download <a href="#">here</a>	Not available for Android

	iSpyFrogs	<p>This frog field guide contains detailed descriptions, rich images, breeding calls and distribution maps of all twenty species found in the Goulburn Broken Catchment, situated in the south eastern Australian State of Victoria. It also allows users to record frog sightings at the push of a button, which are mapped and displayed in real time on the Goulburn Broken Catchment Management Authority website. These sightings will help build our knowledge on the distribution and habitat preferences of frogs across the Goulburn Broken Catchment. So if you want to know more about frogs and contribute to their study, this app is for you.</p> <p> <b><i>New in this edition</i></b></p>	Free	37Mb	Internet required for some sections	iOS (iPhone or iPad) download <a href="#">here</a>	Not available for Android
	Love this beach	<p>This app was developed by NRM North (Northern Tasmania). NRM North is asking volunteers and other members of the public to help them document the use, the flora and fauna, and the current condition of their local beaches.</p> <p>The information you provide will be used to map updates on the status and condition of these sites, which will help us to better target some of these issues, such as weeds and litter.</p> <p> <b><i>New in this edition</i></b></p>	Free	8.6Mb	Internet required	iOS (iPhone or iPad) download <a href="#">here</a>	Not available for Android

	My Environment	<p>This app, from the Australian Government, Department of Sustainability, Environment, Water, Population and Communities, allows you to find the Australian environmental places and species that make up your neighborhood using the GPS on your phone. See the heritage places, wetlands, protected species, protected areas, weeds and invasive species near you. Drill down to see photos and location maps of environmental places and species. Add records to your favourites list for later viewing. Search for places using the map or address search.</p>	Free	13.6Mb	Internet required	iOS (iPhone or iPad) download <a href="#">here</a>	Not available for Android
	NRM Plus	<p>For use in the Condamine Catchment area (Qld), use this app to show Condamine Alliance what you find and tell them what you see. By sharing individual observations and findings we can develop a richer understanding of our environment's health and condition across people, water, land and wildlife.</p> <p> <b><i>New in this edition</i></b></p>	Free	3.3Mb	Internet required	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android
	Trend SA	<p>TREND is an environmental monitoring program dedicated to recording information on South Australian ecosystems and key species. Using this app, you can send us photos of the species and locations we are researching, while learning more about the South Australian environment. We will analyse the photos and information you provide to gain a better understanding of how native and introduced species are responding to climate change and other environmental pressures.</p> <p> <b><i>New in this edition</i></b></p>	Free	3.5Mb	Internet required	iOS (iPhone or iPad) download <a href="#">here</a>	Available for Android

	<p>TurtleSAT – Map Turtles</p>	<p>TurtleSAT- Turtle Surveying and Analysis Tools- is a new APP where communities are mapping the location of freshwater turtles in waterways and wetlands across the country. Australia’s unique freshwater turtles are in crisis – their numbers are declining and your help is needed to record where you see turtles in your local area.</p> <p>If you see a freshwater turtle (or a turtle nest) near your local creek, farm dam or on the road, enter the location of your sighting in this APP. Your sightings will help land managers to track the movement and behaviour of turtles, to protect them and their offspring in your local area.</p> <p>Record where you see freshwater turtles or their nests in your local area – Start mapping now! You can Register and login, or simply record your email address when entering sightings.</p> <p> <b><i>New in this edition</i></b></p>	<p>Free</p>	<p>14.9Mb</p>	<p>Internet requires</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Available for Android</p>
	<p>Water Storage</p>	<p>The Bureau of Meteorology’s official Water Storage app reports storage information for more than 250 publicly-owned storages around Australia.</p> <p>Features:</p> <ul style="list-style-type: none"> <li>• See current water levels by percentage or volume in megalitres (ML)</li> <li>• Compare current levels to the previous calendar year</li> <li>• See the change from the previous day, week, month or year</li> <li>• See a full-screen graph, showing this year and last year</li> </ul>	<p>Free</p>	<p>2.7Mb</p>	<p>Internet required</p>	<p>iOS (iPhone or iPad) download <a href="#">here</a></p>	<p>Not available for Android</p>

		<ul style="list-style-type: none"> <li>• Add places of interest to your Favourites list</li> <li>• From a nation-wide summary, select information on states and territories, cities and supply systems and individual water storages</li> <li>• Find any place by typing the first few letters of its name</li> </ul>
