

SOUTH AUSTRALIAN DROUGHT RESILIENCE ADOPTION AND INNOVATION HUB

Building drought-resilient horticulture and viticulture businesses

SCIENCE TO PRACTICE FORUM 2023

NETWORKING AND KNOWLEDGE MEETING

WEDNESDAY 7 JUNE 2023, 4pm – 6pm FOLLOWED BY DINNER
Barmera Club, 149 Dean Drive, Barmera

FREE EVENT INCLUDING DINNER (registrations essential)

Join the SA Drought Hub for an enjoyable afternoon of networking and knowledge-sharing at the Barmera Club, followed by dinner on us.

With a focus on horticulture and viticulture, Peter Hayman (South Australian Research Development Institute) and John Gladigau (ifarmwell) will discuss how farms and communities can prepare for dry conditions and build their business and personal resilience to drought.

PROGRAM

- **Introduction** – Tony Randall, SA Drought Hub
- **Murraylands and Riverland Landscape Board project update** – Michael Cutting, Land and Water management, Murraylands and Riverland Landscape Board
- **Climate information for risky decisions: what does El Nino mean for the Riverland** – Peter Hayman, SARDI Climate Services (including Q&A)
- **Keeping on top of things: Resilience is also about wellbeing** – John Gladigau, ifarmwell (including Q&A)
- **Dinner** (food only; drinks available for purchase)
