

GRDC GROWER FORUM

THURSDAY 21 MARCH 2024, 4.30pm - 8.45pm
PORT KENNY

Photo: Nicole Baxter.

You are invited to attend a GRDC Grower Network Forum, which will be held at the Port Kenny Hotel on Thursday 21st March, 2024. Come along and contribute your suggestions for future GRDC investments in research, development and extension.

The forum will gather your feedback and input into your local research and extension needs, and consider how GRDC investments could add further value to the region. The forum will provide an update on local GRDC investments and feature Dr Gupta Vadakattu from CSIRO presenting an update on calcareous soils.

It will also feature an update from Dr Nigel Wilhelm, SARDI, who will present on managing highly calcareous soils considering managing P, utilising bio-char, deep ripping strategies and improving fertility of the subsoil. The forum is free of charge and will be led by GRDC Grower Relations Managers Rebekah Starick and Ruth Peek.

A facilitated workshop session will allow you to contribute the factors which are impacting your farm productivity and profitability. We will also review opportunities for local GRDC research, development and extension support.

All growers, advisers and industry representatives are welcome. Note that registration is essential for catering purposes.

Please bring your laptop or tablet for use during the workshop session. Devices will also be provided.

WHERE AND WHEN

VENUE:

Port Kenny Hotel
19 Flinders Highway
PORT KENNY SA 5671

WHEN: Thursday 21st March 2024

TIME: 4.30pm to 8.45pm

Dinner included.

This is a free of charge forum.

AGENDA		
TIME	TITLE	PRESENTER
4.30pm	Welcome and introduction	Rebekah Starick / Ruth Peek Grower Relations Managers, GRDC
4.45pm	Update on GRDC investments • Snapshot of regional and national research, development and extension	Rebekah Starick / Ruth Peek
5.15pm	Review and identify factors impacting farm productivity and profitability	Rebekah Starick / Ruth Peek
5.45pm	DINNER	
6.45pm	Review priority opportunities for local research, development and extension • Identification of potential GRDC investment support • Define local RD&E needs	Rebekah Starick / Ruth Peek
7.15pm	Calcareous soil management: • Microbiology in calcareous soils • N cycling and availability in calcareous soils • Rhizoctonia and disease suppression in calcareous soils	Dr Gupta Vadakattu Senior Senior Principal Research Scientist CSIRO
7.45pm	Update on calcareous soils management considering: • P deficiency as a throttle to early vigour and yield of broadacre crops. • Biochar at seeding to improve early vigour and yield • Deep ripping to manage subsoil compaction • Tip for improving the fertility of subsoils • Understanding and managing iron deficiency in pulses.	Dr Nigel Wilhelm Senior Research Scientist SARDI
8.30pm	Pathway forwards	Rebekah Starick / Ruth Peek
8.45pm	CLOSE
