

FROM GOOD TO GREAT TEAMWORK

Cultivating a farming family team that thrives through challenge

Join us for a transformative half-day workshop designed to elevate cohesiveness within your farm business. Whether you're farm owner, husband, wife, manager, employee, or next gen, this session is tailored to foster stronger relationships and efficient collaboration.

In this workshop you'll gain practical techniques for:

- Managing stress effectively
- Mediating conflicts
- Enhancing communication to strengthen connections within the whole farm team

This professional development opportunity is ideal for anyone involved in farm businesses seeking to improve their interpersonal dynamics and team effectiveness. The session includes hands-on practice to help you apply what you learn directly to your day-to-day interactions.

'Opened my eyes to many things I hadn't taken time to consider previously – a worthwhile session'. – Jane, workshop participant

To maximise the impact of the workshop, we encourage all on-farm family and employees to join us for a fun and fascinating discussion followed by lunch.

Led by Bron Stedall, People Development Consultant from Pinion Advisory.
